Personal Information

Category	Details
Contact	Phone: +91 8180899804
Location	Pune, MH, India
Personal	Date of Birth: 15 December 2001

Education

Degree/Qualification	Institution	Location	Period	Key Details
Bachelor of Science (B.Sc.) – Mathematics	P.A.H.Solapur University (Mauli Mahavidyalaya)	Solapur, India	07/2020 – 03/2023	CGPA: 8.6 / 10
Higher Secondary (12th)	S. E. S. Junior College, Solapur	Solapur, India	07/2018 – 03/2020	Percentage: 59%
Secondary School (10th)	B.F. Damani High School Solapur	Solapur, India	06/2018 Passout	Percentage: 78%

Professional Experience

1. Full-Time Role: Data Scientist

Company / Role / Period	Maestro Intellect Pvt. Ltd. / Data Scientist / 10/2023 – Present (Pune, India)
Key Achievements & Responsibilities	- Built and deployed a loan sanction propensity model which enhanced the bank's loan processing system, resulting in a 35% increase in business by optimizing approval rates and minimizing risk. - Automated ETL pipelines using Apache Airflow for seamless data processing and model retraining, significantly boosting efficiency. - Conducted extensive EDA, managed the ML lifecycle using MLflow for tracking, and collaborated with the MLOPs team on AWS deployment.

2. Internship Experience

Role	Data Science Intern
Company / Period	Maestro Intellect Pvt. Ltd. / 07/2023 – 10/2023

- Key Contributions
- Analyzed e-commerce customer feedback data to uncover trends and **patterns** influencing satisfaction.
 - Created a visualization **dashboard** and provided actionable insights for predictive model refinement.

3. Mentoring & Training Experience (Part-Time)

Role	Organization / Institution	Period	Focus
Data Science Mentor	Data Council Institute	01/2024 – Present	Mentored students in Python, ML, and portfolio building, focusing on real industry workflows.
Guest Lecturer	IIT Bombay & 15+ Colleges	2023 – Present	Conducted specialized sessions on Python, Data Science, ML, and AI, using real-world case studies.

Projects & Certifications

Industry & Academic Projects

Project Name	Origin	Focus & Key Technologies
File-to-Sanction ML System	Industry (Full-Time)	End-to-end ML workflow, utilizing MLflow for tracking and Apache Airflow for pipeline automation.
Predictive Modelling with Bayesian Statistics	Academic (B.Sc. Final Year)	Advanced statistical project focusing on Bayesian Inference and predictive modeling techniques.
AI Trip Planner Web Application	Personal	Interactive AI-powered web application using Streamlit and Google Generative AI.

Certifications & Leadership

Category	Title / Role	Institution / Issuing Body	Period / Year
Certification	Full Stack Data Scientist	iNeuron.ai	Completed
Leadership	President, Mathematics Club	P.A.H. Solapur University	2022 – 03/2023
Volunteering	Technical Workshops & Mentorship	Various Colleges	2023 – Present

Technical Skills

Core Competencies	Details
Technical Stack	Programming/MLOps: Python, SQL, MLflow, Apache Airflow, AWS, Docker, Stats, Power BI, C, C++, HTML, CSS, Javascript, Langchain, NLP, Transformer, PCA, Time Series, Deep Learning, Computer Vision, Gen AI, Agentic AI
Languages	English (Fluent - B2), Marathi (Native), Hindi (Native), Gujrati, German (Eagerness to learn)
